**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I support broadband competition as a consumer .

Do the right thing by the great people who power the economy from the bottom up. I say NO to price hikes that will increase the cost of internet and telephone services.

I choose a competitive provider because competition is good for the consumer. It gives us innovative options like in other countries, and it benefits us as a people who need access to information in order to make decisions around our lives, like healthcare, education, voting, politics, policy debates etc.
